

Garden Plot User Agreement

I hereby agree in consideration for the rental of a garden plot to clean the assigned plot of all personal items, debris, string, and wire on or before 30 Nov of the current growing season. Failure to do so results in the disposal of any, and all, materials and a cleaning fee of \$50 per plot.

I understand that I will be able to start using my garden plot after 1 Mar.

I understand that I must keep my garden plot area clean and free of debris & weeds.

I will be responsible for the upkeep of my garden plot. Users are not permitted to store tools, supplies, or any personal items on site. Failure to abide will result in the termination of this user agreement.

This agreement implies no responsibilities on 49th Force Support Squadron (FSS) or Outdoor Recreation for water, tools, or garden supplies or maintenance of plots other than the minimal upkeep required prior to growing season.

I understand that the availability of sprinklers in each garden plot does not constitute a requirement for regular watering to be provided by FSS or ODR. It is my responsibility to ensure my plot is watered as needed.

A payment of user fee of \$20 per lot is required at the time of reservation.
